## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1-10 are allowed.
2. The following is an examiner's statement of reasons for allowance: Claims 1 and 10 of the current application teach similar subject matter as the prior art of Ogawa et al (US Patent 5,828,780). However, claim 1 is allowed for the reasons pointed out by Applicant's remarks (p10, 6<sup>th</sup> paragraph - p11, 2<sup>nd</sup> paragraph).

It follows that independent claim 10 a method claim containing a similar novelty, is allowable for the same reasons. Claims 2-9 are then inherently allowable for depending on an allowable base claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Response to Arguments***

3. The Applicant responds to the objection of informal drawing. The Applicant submitted formal drawings and overcomes the said objection. The Examiner therefore withdraws said objection.

Art Unit: 2626

4. The Applicant responds to the objection of the abstract of the specification. The Applicant amends the abstract of the specification and overcomes the said objection to the abstract. The Examiner therefore withdraws the said objection.

5. The Applicant responds to the objections of the disclosure. The Applicant amends the disclosure and overcomes the said objections. The Examiner therefore withdraws said objections.

6. The Applicant responds to the objections of claims 1 and 7. The Applicant amends said claims and overcomes the said objections. The Examiner therefore withdraws said objections.

7. Applicant's arguments, see p.10, paragraph 6 – p.11, paragraph 2 filed 13 September 2004, with respect to claims 1, 2, and 7-9 have been fully considered and are persuasive. The rejections of claims 1, 2, and 7-9 have been withdrawn.
